Australia Announces \$18.2 Million in CCS Funding

Seven Australian carbon capture and storage projects have been awarded a total of \$18.2 million (USD) via the national government's Carbon Capture and Storage Research Development and Demonstration Fund (CCS RD&D Fund). "The seven projects selected include both industry and research institution-led projects. These will further add to Australia's knowledge and successful implementation of large scale CCS projects in Australia," Minister for Resources and Northern Australia Matt Canavan said in an announcement Monday. Awardees are: Glencore, receiving \$6.74 million; Shell Australia, receiving \$532,674; the University of Melbourne, receiving \$1.03 million;...

CO2 Solutions Strikes Deal with Pulp Mill, Greenhouse

Quebec-based carbon capture technology developer CO2 Solutions has reached an agreement with Fibrek General Partnership, a subsidiary of Resolute Forest Products Inc., and Serres Toundra Inc. to deploy a carbon capture unit on a pulp mill in the Saint-Félicien region of the Canadian province. "We are very proud to achieve the significant milestone of a first commercial agreement for the use of our technology alongside first-class partners," CO2 Solutions President and CEO Evan Price said in a press release. The project, which carries a \$7.4 million (CAD) price tag, is...

Tees Valley Hosts U of Edinburgh CCS Project

Sembcorp's biomass power station, located on the Wilton International site in Tees Valley, U.K., has been chosen to host a University of Edinburgh carbon capture and storage project. "We are delighted to be able to host Edinburgh University's work in Carbon Capture at Wilton International as we look to further increase the 'green' credentials of the site and continue our commitment to offer green energy solutions," Scott Taylor, Sembcorp assistant vice president of business development, said in a Tees Valley Combined Authority press release. Tees Valley is home to the...

R Street: Conservatives Must Develop Alternatives to Left-Wing Environmental Policies

It is well past time for conservatives to meet liberal environmentalism with alternative policies based on their fundamental beliefs, according to a new paper from the R Street Institute. "For years, the left has claimed the high ground of environmental debates, dominating the discussion about how to address ... environmental concerns. Despite the failure of many of their ideas, they continue to define the debate, because conservatives have not offered effective alternatives, policies based in personal freedom and responsibility," the report says. Developing a conservative environmental policy alternative should not...
